

Behavioral Health Crisis Center

REQUEST FOR INFORMATION

OFFERED BY
ROCKY MOUNTAIN HEALTH PLANS AND
SIGNAL

Overview

As BHASOs, Signal and Rocky Mountain Health Plans (RMHP) would like to determine if any organizations are exploring the new Behavioral Health Crisis Center (BHCC). [BHA's current rule draft](#) defines a BHCC as:

“Behavioral Health Crisis Center,” or “BHCC,” means the co-location of Walk-In-Crisis (WIC) and Crisis Stabilization Unit (CSU) services and sub-endorsements. BHCCs receive and serve individuals experiencing a self-defined behavioral health crisis, with triage, screening, and assessment occurring on-site. BHCCs can accommodate overnight placement for voluntary and involuntary individuals who require oversight and support while stabilizing, but do not require hospitalization.

We are interested in learning if any provider agency is exploring implementing this model, and specifically if your organization is exploring to serve a rural or frontier location.

Responses

Responses should not exceed 2 pages, and should include responses to each of the questions below. We are assessing interest from provider organizations, so please provide a brief answers to each questions. Depending on interest, we may follow up with an RFP.

1. Name of organization and contact information for follow-up.
2. Would you be open to creating or converting existing services into a BHCC in a rural or frontier county location?
 - a. If so, where do you think the ideal location would be?
3. Describe your approximate start-up expenses and timeframe?
4. If this was the only funding you received from BHASOs (for start-up), do you foresee that it would be financially sustainable?
 - a. If not, do you have an estimate of the annual supplemental funding that it would take to make it financially sustainable?

Submission

Please send responses by **September 18, 2026** to:

- For Region 1: rmhp.bhaso@uhc.com

- For Regions 2, 3, 4: proposals@signalbhn.org

Feel free to ask questions, as well!
